PROFESSIONAL SUMMARY

Motivated and enthusiastic B.E. Computer Science Engineering (2026) graduate seeking an entry-level position as a Java Full Stack Developer. Currently pursuing Java Full Stack training at Tap Academy, Bangalore, with knowledge in Core Java, JDBC, SQL, HTML, and CSS. Eager to apply technical skills, learn new technologies, and contribute effectively to organizational growth.

TECHNICAL SKILLS

- **Programming Language:** Core Java
- **Database:** MySQL
- **Query Language:** SQL
- **Backend Technologies:** JDBC, Servlets, JSP
- **Frontend:** HTML, CSS
- **Web Server:** Apache Tomcat

PROJECTS

Foodify – Online Food Ordering Web Application

Technologies: Java, JDBC, Servlets, JSP, HTML, CSS, MySQL, Apache Tomcat

- Developed a full-stack food ordering web application enabling users to register, log in, browse restaurants and menus, add items to the cart, place orders, and manage their profiles.
- Built backend using Java, JDBC, Servlets, and JSP with MySQL database for data storage.
- Deployed using Apache Tomcat server with frontend designed using HTML and CSS for clean, user-friendly experience.

Kidney Stone Detection Using Deep Learning with Chatbot Support

Technologies: Python, Deep Learning, TensorFlow

- Developed a system for detecting kidney stones using deep learning techniques.
- Integrated a chatbot to provide suggestions and guidance to users.

Personal Portfolio Website

Technologies: HTML, CSS

- Developed a personal portfolio website to showcase personal information and technical skills.
- Designed and structured the web page using HTML and CSS.
